*El Paso headquartered METI, Inc. acquires San Diego, California
I/T infrastructure company Effecture, LLC.*

Management and Engineering Technologies International Inc. (“METI”) is pleased to announce the acquisition of Effecture, LLC (“Effecture”), a leading IT infrastructure and solutions provider for the Department of Defense. www.effecture.com

Headquartered in San Diego, CA, Effecture is an industry leader in tactical network design, integration, testing, deployment, and support of C5I systems for the Department of Defense. The company specializes in creating effective, efficient, and economical solutions to solve the most complex engineering and communication challenges.

Headquartered in El Paso, TX, METI is a professional services company providing natural resource management, advisory and assistance services, test and evaluation, and IT services to the federal government, including the Department of Agriculture, Department of State, and Department of Defense, among other agencies. METI, Inc. was founded in 1994 and has highly skilled professionals working worldwide supporting the U.S. Government. www.meticorp.com

METI’s President released a statement “that this acquisition of Effecture adds valuable long-term contracts and professional talent, and augments METI’s offerings to its clients”.

METI was represented by Eureka Capital who advised METI during all phases of the transaction, including deal structuring and negotiations.
